Current Responsibility

Jeremy White is a consultant and senior actuarial associate in the Dallas office of Milliman. He joined the firm in 2002 and practices in the employee benefits field, working with a wide variety of employee retirement plans.

Professional Work Experience

Jeremy works with various types of employers, focusing on plan implementation and ongoing administrative requirements for a broad range of qualified, nonqualified, and public retirement programs. He assists clients in the designing, funding, and financial reporting of their retirement programs.

Jeremy is a member of Milliman's National System Enhancement Committee focusing on enhancements of software applications; member of the National Super Users group tasked with the transition and ongoing use of valuation software; member of the national Milliman PS Online Committee tasked with developing a web-based projection tool.

His extensive experience includes the following areas:

- Preparing actuarial valuations for defined benefit, nonqualified, OPEB and public plans
- Developing cost projections to evaluate future business conditions and their impact on benefit programs
- Assisting plan sponsors with plan design strategies and cost implications

Professional Designations

Working toward Enrolled Actuary status with the Joint Board

Education

BS, Applied Mathematics, Texas A&M University
